

Preferred Drug Lists (PDL) and Other Drug Coverage for Medicaid and LaCHIP Enrollees

Pharmacy services is one of the benefits offered to Medicaid and LaCHIP enrollees through Bayou Health and the legacy fee-for-service Medicaid programs. Your pharmacist fills your prescriptions from listings of covered medicines called the Preferred Drug List (PDL), and the covered drug list. Members enrolled in a Bayou Health Plan will use the PDL and covered drugs for their particular plan, while fee-for-service Medicaid enrollees will use legacy Medicaid.

There are some medications which require a prior authorization. The doctor must first get approval, also known as prior authorization for your medication.

Your doctor, Health Plan and pharmacy will work together to provide the best solution to your healthcare needs.

To view your Health Plan's PDL, or learn more information about your pharmacy benefits including who to contact if you have a question, click on your Health Plan's logo below.
